26-27 January 2023, Vilnius, Lithuania

The Conference

WINDMission BSR (Baltic Sea Region) 2023 26-27 January 2023, Vilnius, Lithuania

WINDMission BSR conference, now in its fourth year of running, is an internationally-recognised high-profile event gathering the most important companies from Poland, Germany, Denmark, Sweden, Finland, Latvia, Estonia and of course Lithuania involved in the development of the wind industry, from key decision-makers though to service companies.

WINDMission BSR conference, conference creates a unique chance to brush shoulders with the representatives of utilities, grid operators, investors, EPCs, wind park developers and all kinds of service providers. Whether you are already active in this market or considering your options, this is a conference for you.

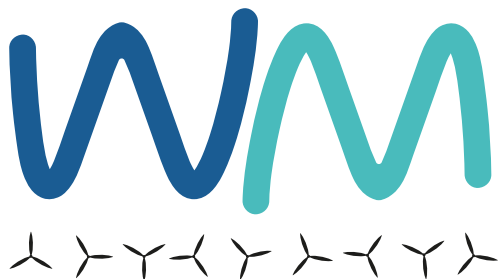

WINDMission BSR conference is once again organised in cooperation with Lithuanian Wind Power Association.

“ The Voice of Renewables conferences are something I always look out for, the speakers are high quality and always industry professionals and leaders. What is most important is the local aspect, the attention to detail around selecting panels with genuine local knowledge is something I appreciate.

GARY BILLS
CHIEF OPERATIONS OFFICER (WIND AND SOLAR)
IGNITIS RENEWABLES

in cooperation with:

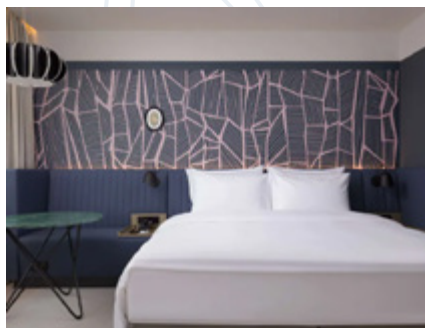

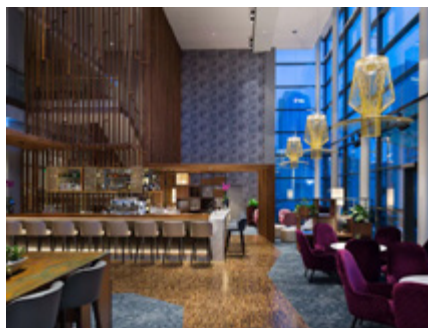

26–27 January 2023, Vilnius, Lithuania

WindMission BSR will take place at the Radisson Blu Hotel Lietuva on the 25–27 January 2023.

The Radisson Blu Hotel Lietuva, in Vilnius, stands on the banks of the River Neris. The hotel is in the heart of Lithuania's capital, near rich historic sites such as the Old Town and Vilnius Cathedral. Old Town is also the place for shopping. Wander around the cobbled streets and explore the wide range of stores and markets. You're close to an array of transport options, including bus and train station, while the airport is just 9 kilometers away.

Workshop I

January 25th, 2023, Wednesday – 14:00–17:00

Organised by Polenergia and Green Genius

DEVELOPMENT OF OFFSHORE WIND FARM PROJECT ON A NEW MARKET – MANAGING KEY CHALLENGES AND OPPORTUNITIES

Polenergia with Green Genius invite to a specialized workshop as a pre-event of the Wind Mission conference. During the workshop Polenergia, Green Genius and their partners will present different aspects of development of offshore wind farm projects on new markets. The workshop will focus on presenting both the current overall sector situation as well as key risks and challenges of offshore wind farm development.

Expert market players will share their knowledge and expertise on the offshore wind industry during the workshop. Don't miss this opportunity to learn from industry leaders and gain a deeper understanding of this important sector.

Join us in Vilnius!

in cooperation with:

SORAINEN

Key topics:

- Introduction – Polenergia and Green Genius activities, plans for offshore wind in Lithuania; Maciej Stryjecki, Head of Offshore Wind Development at Polenergia, Dr Darius Biekša, Head of Hydrogen and Wind projects at Green Genius
- Economic aspects of offshore wind farm development; Jeff Davis, Senior Consultant, Project Development & Advisory Offshore Wind at Ramboll
- Building a supply chain on a new market – risks and challenges; Paweł Mawduk, Offshore Wind – Supply Chain Project Manager at Polenergia; Magdalena Klera-Nowopolska, Stakeholder Manager at Polenergia
- WTG supplies – key market risks, logistics, O&M for offshore wind farms; Paweł Przybylski, Sales Director Offshore at Siemens Gamesa Renewable Energy
- Mobilization and construction of offshore wind farms; Piotr Żeglarski, Business Development Manager at Seaway7

Panel discussion:

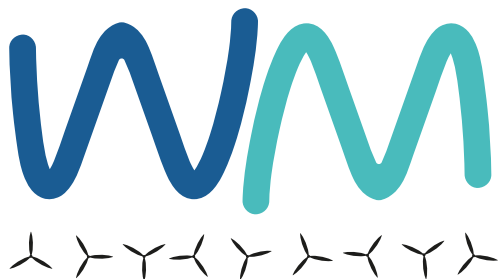

- Development of OWF project on a new market – challenges and risks from supply and logistics point of view; Paweł Przybylski, Sales Director Offshore at Siemens Gamesa Renewable Energy; Piotr Żeglarski, Business Development Manager at Seaway7; Mariusz Wójcik, Director, Project Development & Advisory Offshore Wind at Ramboll; Paweł Weiner, CEO of MAG Offshore; KLASCO representative; TELE-FONIKA Kable representative

Summary:

- Main conclusions; Maciej Stryjecki, Head of Offshore Wind Development at Polenergia

In cooperation with:

KLASCO, Ramboll, Siemens Gamesa Renewable Energy, Seaway7, TELE-FONIKA Kable, MAG Offshore

26-27 January 2023, Vilnius, Lithuania

Workshop II

January 25th, 2023, Wednesday – 15:00 – 18:00

Organised by UL Solutions and PRS

Lessons learned from other markets – risk and potential mitigation strategies in offshore project development.

The workshop will focus on several topics with concrete examples from other countries (including the Polish offshore market), related to the whole lifecycle of project development and execution during construction.

Many of the examples will be taken from current work being conducted on offshore projects on the Baltic Sea and other global offshore locations.

- Some of the key topics will include:
- Key considerations for feasibility assessment
- What is key to know regarding the supply chain and project planning
- The importance of different steps in project design
- Project certification, key learnings from other markets
- Group discussion – open discussion for all participants
- Drinks, snacks and networking

in cooperation with:

SORAINEN

Workshop Speakers

MR MICHAEL IDZIOR
Business Development
Manager Northern & Eastern
Europe
UL Renewables

MR SLAWOMIR BALDYGA
Industrial Supervision Division
Director
PRS Poland

MR JOERN GERLACH
Offshore Certification Lead
UL Renewables

MR ANDREI TANASE
Senior Project Engineer
UL Renewables

08:00 Registration desk opens

09:00 Conference opening and introductory remarks: Ms Lena Turevych, Conference Producer, The Voice of Renewables

09:10 Conference opening Keynote Address – Mr Dainius Kreivys, Minister of Energy of Lithuania TBC

09:30 – 10:00 Networking Break

10:00 – 11:00 Panel I – Assessing the current renewable energy industry landscape and the way forward.

WINDMission is run in parallel with Solar Lithuania and Charging Point Lithuania conferences. This panel will be attended by all participants of those event.

2020s were supposed to be boom years for the wind energy industry and in many ways they are. However, recent pandemic and Russian aggression on Ukraine put many a strain on the sector, adding to the supply chain issues and ever smaller margins. What is the current outlook and what is perceived as major bottlenecks that need to be tackled or at least navigates for the sector to truly take full advantage of the opportunities?

Moderator: Mr Vaidotas Puklevičius, Partner, Walless

Panellists:

Mr Jaroslaw Trybuchowicz, Chief Executive Officer, Orlen Neptun
Mr Patryk Figiel, Partner, Head of Warsaw Energy and Infrastructure practice, Linklaters
Mr Matas Anuzis, Project Lead Offshore Wind Development Lithuania, RWE
Ms Anna Łukaszewska-Trzeciakowska, Undersecretary of State, Ministry of Climate and Environment of Poland

11:00 – 11:30 Sponsor presentation: UL Solutions – Mr Michael Idzior Business Development Manager, Northern & Eastern Europe

11:30 – 12:00 Networking Break

12:00 – 13:00 Panel II – 2030 financial outlook – taking the risk off the table.

How open and liquid is debt market for wind power industry? What are the major trends in lending market? What financing cost can be expected in near future? Back-leveraged lending and the most effective ways of lowering the project's overall cost of capital. What intercreditor issues may come up? How is the current inflation affecting liquidity?

Moderator: Mr Tomas Milašauskas, Renewable Energy Fund Manager, Lords LB Asset Management

Panellists:

Mr Salvatore Santoro, Global Head of Renewables, Infrastructure & ESG, Investment Banking Division, DNB Markets
Mr Grzegorz Zielinski, Director, Head of Energy Europe, EBRD
Mr Georg Kopp, Senior Investment Analyst, Encavis

13:00 – 14:00 Lunch

14:00 – 15:00 Panel III – Just in time.

Fine-tuning of your supply chain is key to timely and cost-effective execution of the project. As wind energy industry is set to be buffeted by a range of interconnected issues, this panel will look at and assess the major ones and discuss how to your supply chain against disruptions. We will focus on the major causes of instability and ask how to weather the risks and negotiate the bottlenecks in the supply chain moving toward 2030? How can ports be turned into efficient wind hubs?

Moderator: Mr Liudgardas Maculevicius, Associate Partner, Rödl & Partner

Panellists:

Mr Algis Latakas, Director General, The Klaipeda State Seaport Authority
Ms Romana Hartke, Senior Business Development Manager, Mainstream Renewable Power
Ms Christine Harpain, Head of Procurement Global Offshore Wind Development, RWE

15:30 – 15:50 Sponsor presentation: ONDE – Mr Piotr Gutowski, Vice President

15:50 – 16:50 Panel IV – The next big thing: energy storage and hybrid installations.

To support the continuous deployment of clean energy generation over the coming decades as well as the increase in electrification of transport and industry, the energy grid needs help. With changing dynamics in the energy market, energy asset owners and operators will be successful only if they futureproof their energy storage investments. This panel will present the latest in the energy storage technology and look at the novel solutions that aid renewables in grid integration and balancing.

Moderator: TBA

Panellists:

Mr Rokas Masiulis, Chief Executive Officer, Litgrid
Mr Virgilijus Poderys, Director, Lithuanian Energy Agency
Mr Karolis Kiguolis, Co-Owner, Linea Ignis
Mr Priit Lepasepp, Chief Executive Officer, Sunly

19:00 Evening networking dinner (requires separate registration)

Day I – 26/01/2023

in cooperation with:

08:30 Registration Desk Opens

08:55 Conference second day opening – Mr Derek Michalski, Chief Executive Officer, The Voice of Renewables

09:00 – 10:00 Panel I – New projects, onshore wind repowering, and finance – PPAs and merchant market.

Repowering is the true future of wind energy. Optimising your wind farm for better performance, lowering the number of turbines while achieving higher yield makes a lot of sense. This panel will address opportunities and issues related to what is already becoming a permanent fixture of the map of wind energy development.

PPA's are a key driver in the widespread deployment of utility-scale renewable energy projects and corporate renewable procurement is the key wind market today. Deal terms in the market continue to evolve. This session will look at the emerging trends in PPA pricing, risk allocation, risk modelling and structures. What new terms are emerging in the corporate market? What are the emerging trends in the risk profile of PPAs? Where PPA tenors are being negotiated? How investors value PPAs? Virtual PPAs vs. physical PPA trends.

Moderator: Mr Andreas Zettergren, Partner, Advokat, Mannheimer Swartling

Panellists:

Mr Andre Rørheim, Sales and Origination, Renewables, DNB Markets
 Mr Giedrius Ruskys, Project and Structured Finance, North, Central and South-East Europe, EIB
 Mr Kai Rintala, Managing Director, Taaleri Energia
 Mr Olli Hagqvist, Director of Power Markets and PPA, OX2

10:00 – 10:30 Networking Break

10:30 – 10:50 Sponsor presentation: Ignitis Renewables – Mr Thierry Aelens, Chief Executive Officer

10:50 – 11:50 Panel II – The future of offshore wind in the Baltic Sea – fixed, floating, energy islands.

Moderator: Dr. Paulius Zapolskis, Partner, TGS Baltic

Panellists:

Mr Thierry Aelens, Chief Executive Officer, Ignitis Renewables
 Mr Maciej Stryjecki, Head of Offshore Wind, Polenergia
 Ms Anu Eslas, Vice President Offshore Wind Development Baltic States, RWE
 Mr Rytis Kevelaitis, Chief Executive Officer, Energy Unlimited

11:50 – 12:20 Networking Break

12:20 – 13:20 Panel III – The next big thing: wind-to-hydrogen.

Green hydrogen is a historic opportunity that can increase Europe's energy security. Wind-generated electricity can power water electrolysis to produce hydrogen, which could be used to fuel vehicles, or stored and then used in fuel cells to generate electricity during times of the day when the wind resource is low. Combining wind energy generation with hydrogen production seems to be one of the most important directions renewable energy will follow in the foreseeable future.

Moderator: Mr Andrius Šimkus, Energy Counsel, Sorainen

Panellists:

Ms Emilia Makarewicz, Head of Hydrogen Projects Development, Polenergia
 Mr Darius Bieksa, Head of Hydrogen and Wind, Green Genius | Modus Group
 Mr Kaspars Cikmačs, Chief Development Officer, Member of the Management Board, Latvenergo

13:20 – 13:40 Sponsor presentation: Enercon

13:40 – 14:10 Networking Break

14:10 – 15:10 Panel IV – The second annual Glass Ball talk.

This panel will briefly summarise the conference and map the road ahead for renewable energy in the Baltic Sea region highlighting the most important points that must be considered in order to create safe environment for the sector. Development of hybrid renewable energy parks.

Moderator: Mr Linas Sabaliauskas, Director, Lithuanian Wind Energy Association

Panellists:

Ms Erika Ščiogoleva, Head of International Development, Ignitis Renewables
 Mr Gediminas Uloza, Chief Executive Officer, E energija group
 Mr Kai Rintala, Managing Director, Taaleri Energia

15:10 – 16:10 Farewell lunch and the end of the Conference

in cooperation with:

26-27 January 2023, Vilnius, Lithuania
